There are three errors in the original paper. First, the last sentence of the legend for Figure 3 should have read “ $P < .01$ versus group subjected to treatment with the ED₅₀ concentration of GLP-1 and stimulation with 11 mM glucose.” Second, the word “inhibits” in the third line of the right column on page 5 should have read “regulate.” Third, the typo “LD” in Reference 23 on page 6 should have read “L_D”. We apologize to readers for these errors.
